

# DAVID BYCHKOV

---

## **Chairman, President and CEO**

David Bychkov is the architect of Exmovere Holdings' product and management strategies. His singular objective is to extract as much value as possible from the company's core intellectual properties and biomedical engineering competencies for the company's shareholders. His management team's immediate tasks are: to compete for hundreds of millions of annual government R and D dollars, to produce and deliver wireless and embedded biosensor products for healthcare, security and mobility to government and commercial customers, and to acquire synergistic, profitable companies.

A native of New York, David is currently ABD in the Philosophy of Neuroscience at the European Graduate School (EGS) in Saas Fee, Switzerland. In 2005, David completed his Master's Degree at EGS and has since been honored to study under Professors Wolfgang Schirmacher, Sandy Stone and Siegfried Zielinski. Like his grandfather, the Russian psychophysicologist Dr. May Bychkov, David is a disciple and student of Karl Pribram's holographic model of the brain. David holds a Bachelor's Degree in Cinema and Media Studies from the University of Chicago. It was at Chicago where he studied under Yuri Tsivian and Tom Gunning, and received research funding to uncover the linked histories of neuropsychology and cinema. David Bychkov went on to serve as Professor of Holographic Cinema and Director of the Laboratory of Psychophysiology at Universita' dell' Immagine in Milan, Italy from 1999-2006. It was at Universita' dell' Immagine that David, Fabrizio Ferri and fellow scientist Dr. William Giroladini first deployed emotion detection algorithms in the fields of market research, skin products testing and flight simulation.

# ROBERT DOORNICK

---

## **Director**

Robert is President and Founder of International Robotics Inc., and the Techno-Marketing Alliance. In addition to his work as an inventor of robots, he is also known for developing original marketing strategies. It was Doornick's Keynote Address at a World Conference for the shopping center industry which triggered such intense interest in Techno-Marketing. He has also lectured at The U.S. Space Foundation, New York University School of Business, Fordham University, the International Conference for the Exhibit Industry, the International Council of Shopping Centers, the International Meeting Planners Association, as well as conducting numerous seminars for Fortune 500 Companies. As a Director of Exmovere Holdings Inc., Robert's role is to help the company focus on its core products: the wristwatch, the turnstile and the Chariot.

# JOSEPH BATTY

---

## **Director, Board Secretary and Comptroller**

Joe Batty has helped shepherd Exmovere's process of going public. He currently handles Exmovere Holdings' accounting and interfaces with the company's auditor for SEC filings. During his 30-year career as a Chartered Accountant, Joe has served a variety of organizations in both the private and public sectors. He has held several directorships and management positions, including a 3-year tenure as CEO of a high tech company specializing in computer-controlled lighting systems. During his tenure as VP of Finance at the Northern Alberta Institute of Technology, Joe's interest and involvement in new products and technologies led to his spearheading a technology transfer liaison program between NAIT professional staff and industry. Two decades hence, new products and technologies are continuing to be commercialized and the Liaison Program is a vital source of innovation for Canadian high tech companies.

# ROBERT KINSSIES

---

## **Director**

Bob Kinssies began his career with Microsoft in 1986 and had the unique opportunity of being involved from the ground floor throughout their explosive growth. He was fortunate to have directed some of their most significant supply chain projects ever. During his 22 year tenure, in multiple senior management roles, Bob served as an expert developing world class

businesses and turnkey solutions. He managed a team of over 500 people and numerous partners, who brought retail products from order to fulfillment.

Bob has been recognized for strategic planning and execution, global sourcing, contract negotiations, vendor development, and continuous improvement programs which produced billions of dollars in revenue, savings, and profits. He was ranked 72nd in seniority out of a staff of nearly 150,000, when he retired in 2008. In 2008, Bob founded Innovative Solutions Consultants where he proactively engages clients to achieve best-in-class results. Customized solutions are collaboratively designed to unlock each organization's hidden potential, allowing for maximum results. ISCI's efforts help clients streamline processes, increase revenue and improve profitability. Bob was approached to join a startup green energy firm, Energy Solutions Worldwide in 2010. As COO there, he provides strategic guidance to the organization, its partners and independent contractors, ensuring alignment to company goals, while delivering operational and fiscal results.

As a member of Exmovere's Board of Directors, Bob will be helping to focus the company on getting its products to market and making strategic relationships with other industry players.

## DR. JUN QUION, MD, FACC

---

### **Clinica Medical Co-Director**

After graduation from medical school, Jun was accepted in the competitive internal medicine residency program of the Baylor College of Medicine in Houston Texas. There he spent another year in research on Lipids and Atherosclerosis, under the preeminent Dr. Antonio Gotto. He pursued further training in Cardiovascular Medicine and Interventional Cardiology at the University of Connecticut. He currently practices at the Inova Heart and Vascular Institute in Fairfax Virginia and is a valuable member of the Clinica supervisory and advisory team.
